

The Alkazar is a 6m x 9m Gable ended, clear span canvas tent. The Peak of the roof is approximately 4.3m high and the sidewalls are 2.5m high. The front of the tent is clad in a wooden façade depicting a "Russian" skyline. It is affixed to the floor via 10 x metal tent pegs. Concrete blocks or water weights can be used on a hard surface. It takes approximately 5 hours to put up and 3 to take down. The Alkazar seats 100 people.

The Alkazar comes with a full lighting rig and Sound System (operator by special request). The benches are all padded and covered in a wipe clean vinyl. Fans can be provided. The Stage is wooden. Emergency Exit signs and a fire extinguisher is provided. All electrical devices and cables come tagged and tested. The Alkazar comes with Public Liability Insurance. The tent can be pegged to grass but if on a hard surface like concrete, 8 x 500 kg concrete blocks can be used which are an additional cost. In some circumstances, water barrels can also be used.
